Obagi "Blue Radiance" Peel: Reveal younger, healthier-looking skin one layer at a time with Obagi chemical peels. Quick superficial salicylic acid-based facial chemical peel that exfoliates and helps improve overall complexion, and provides firmer, smoother, brighter-looking skin after just 1 use. A series of 4 to 6 peels provides best overall results.

\$125

Environ "Cool" Peel: Environ's philosophy proposes a physiological plan to avoid heavy peeling and achieve safer, more beneficial results by a series of light repetitive peeling procedures.

Environ has pioneered the development of a variety of peeling systems in the form of acidic creams and gels. The creams allow for lower acid concentrations, to be left on longer and yield the same results as stronger acids. The gels are called "cool peels" because as the water peel evaporates, it cools the skin.

\$75

DF Vitamin Therapy Medi Facial Treatment:

Using sonophoresis and iontophoresis, this facial helps to penetrate our medical grade vitamin based skin care products deeper into the skin's basal layer using sound waves and pulsed galvanic currents. Great for acne, scarring, lines and wrinkles. This treatment will brighten, tighten and lighten the skin's overall appearance. The ultimate medi facial for the results driven client.

Consultations: We offer complimentary consultations for all procedures or treatments done in our office and also for skin care products and mineral make-up. Consultations are required for Botox Cosmetic, dermal fillers and laser skin treatments.]

Injectables / Filler

Botox Cosmetic: Botox is a purified protein that temporarily improves the appearance of moderate to severe wrinkles. Frowning for instance, can cause the wrinkles seen in the forehead or frown lines. Botox works by temporarily blocking the chemical messenger that causes facial muscles to contract, thereby relaxing them.

Dermal Fillers: Dermal fillers are used to restore the volume to the skin, which nature has slowly removed. Through a simple injectable technique, you will experience instant enhancement or fullness of specific areas of the face such as smile folds or laugh lines, lips and other superficial lines or folds. At ReJuvenere we accomplish this with the use of Belotero, Juvederm Ultra/Ultra Plus/Voluma XC & Radiesse.

Laser Therapy Treatments

Laser Hair Reduction: We are pleased to offer the Duet Laser Lumenis System for hair removal, which is the industry gold standard equipment for the treatment of unwanted hair. This is a long term non-invasive end to unwanted hair enabling high speed and comfortable treatments.

***pricing starting at \$50**

Laser Vein: Leg veins, spider veins and other benign vascular lesions are among the most frequent and challenging aesthetic complaints. The versatility of IPL and the high energy light of the YAG laser reaches both the small superficial red vessels and the deeper blue veins. The result is the most comprehensive system available today that provides unparalleled performance in the noninvasive treatment of the full range of vascular structures.

***pricing starting at \$100**

Levulan Photodynamic Therapy (PDT): For treatment of acne and precancerous sun damaged skin called actinic keratoses. PDT involves the application of Levulan, a photosensitizing agent which is then light activated.

***pricing starting at \$400**

Intense Pulsed Light (IPL): Photorejuvenation incorporates the use of intense pulsed light treatment to help eliminate the signs of aging including brown spots, blemishes, redness, rosacea and unwanted blood vessels while at the same time help stimulate collagen formation. At ReJuvenere, our photorejuvenation is provided by the Lumenis One Platform device which affords our clients the most technologically advanced light therapy available today.
